

Blood Testing

The Lyndhurst Health Department sets aside two dates each year for blood testing/screening of residents 18 years of age and older. The laboratory work includes a variety of blood tests including: complete blood count, blood chemistries, liver function tests, thyroid test, and a cholesterol panel. Cost: \$20.00.

Participating residents must provide the name and contact information of their health care provider. Results will be mailed to the resident and their doctor; residents are required to discuss their results with their doctor.

2010 Blood Screening Clinics:

June 2, 2010 starting at 8:00 am

December 4, 2010 starting at 8:00 am

Appointments required.

Call 201-804-2500 for appointments.
