

Blood Testing

The Lyndhurst Health Department sets aside two dates each year for blood testing/screening of residents 18 years of age and older. The laboratory work includes a variety of blood tests including: complete blood count, blood chemistries, liver function tests, thyroid test, and a cholesterol panel. Cost: \$26.00.

Participating residents must provide the name and contact information of their health care provider. Results will be mailed to the resident and their doctor. Residents are required to discuss their results with their doctor.

Please check the Lyndhurst homepage for Screening dates
