

Child Health Conferences

Our pediatric well-child clinic is held the second Wednesday of every month. Our public health nurse, Alison Roa, and pediatric nurse practitioner, Karyl Reid, provide assessments and immunizations. Our health clinic for children provides free vaccinations with the Vaccines for Children (VFC) program. VFC provides vaccines recommended by the federal Advisory Committee on Immunization Practices. Eligible children are ages 18 years and younger and include those who have no insurance.

Appointments required. Please call our public health nurse at 201-804-2505 to schedule an appointment or to ask questions. A current vaccination record must be submitted before an appointment can be scheduled.
