**Notice from the Department of Public Works  
To All Lyndhurst Residents  
Flushing and Testing of Water Mains**

The Lyndhurst Water Department will be testing and flushing hydrants in the Township of Lyndhurst beginning on Monday, October 2<sup>nd</sup>, 2023. The hydrants will be flushed weekdays (Monday thru Thursday) between the hours of 6:30 p.m. and 10:30 p.m. and the work is anticipated to be completed in about 3-4 weeks.

Customers should note that there may be some unavoidable water discoloration and low pressure at any time during the 3-4 week flushing period.

The Lyndhurst Water Department assures all customers that the water will be safe for use during this period; however, customers are cautioned to determine if the water is clear before washing clothes (or any other processing) as staining may occur. Restaurants, Bars and any other food preparation establishment should take note to turn off any ice making machines during flushing hours and to check to determine if the water is clear before turning equipment back on.

The Lyndhurst Water Department regrets any inconvenience this may cause its customers.
