SUMMER CAMP ACTIVITIES

A variety of summer programs are offered from late June through early September. Some programs offer 2 or more weeks, but can be registered separately. And some have AM and PM sessions that can be booked separately as well.

The programs being offered will typically run from 8:30 AM until 2:00 or 2:30 PM. Most registrations will take place through each individual program/provider. You can find a list of programs offered as well as full program descriptions and registration information on our website:
